

On-line Formulary Website - Changes and Instructions Effective March 1, 2013

The content of the website has remained the same. The following are changes/enhancements that have been made effective March 1, 2013.

- All links that were previously found on the left hand side of the webpage are now found in tabs across the top of the page.
- You can now search by Drug Brand Name and/or Generic Drug Name without having to know which category the name fits under. These 2 categories have been combined together.
- When using the Search Formulary, if you type in a minimum of 3 characters, an auto suggestion list will appear as shown below. Not all options will appear in the auto suggestion list. You can choose to either select the appropriate name from the list and click 'search', or you can just click 'search' and all option will appear.

searches, type in either the full name or partial name (at least 3 letters).

- The option to search by 'Manufacturer' is now available. The search function is the same as the Brand Name/Generic Name.
- The 'Interchangeable Flag' on the results page is now a link. If you click the Interchangeable 'Y' Flag as shown below, it will list only the products that are interchangeable on the Drug Detail screen. In the example below, there are 9 products listed in the search results when "Tamsulosin" is searched and all shown they have an interchangeable 'Y' flag, but for DIN 02281392, only 1 other product is listed as an interchangeable with this DIN.
