APPENDIX 7: Adverse Events Following Immunization (AEFI) for Publicly Funded Influenza Vaccines

Healthcare provider is informed of possible AEFI by patient and/or directly observes AEFI in patient and reviews AEFI user guide to assess reportable criteria.

If event is reportable: healthcare provider completes AEFI Report Form sections 3; 4a; 4b if applicable; 5; 6; 7a; 7b; 7c; 7d; 8, 9a &/or 9b &/or 9c &/or 9d as applicable; and 10.

Healthcare provider (makes copy of report for self and) submits completed AEFI report form to AHA/SHA/FNJ that the vaccine was given in or to the FNJ that client identifies with (e.g., band member).

Upon receiving the AEFI form from the SHA, AHA and FNJ Medical Health Officer's *Recommendations for Further Immunization* (section 11 of AEFI) the healthcare provider contacts the patient and informs them of the recommendations. The SHA, AHA and FNJ (that has access to Panorama) must enter a client warning on the client's Panorama client record (until the AEFI module is supported in the future) as per Panorama bulleting 0024 *Where Do I Document*?

Healthcare provider who initiated AEFI report form informs client regarding the MHO's recommendations and refers patient to Public Health if they have further questions.

SHA, AHA and FNJ submit completed AEFI report and forwards only reportable AEFIs to the Ministry of Health.
