

	Name of Activity – Process for Reviewing COVID-19 Adverse Events Following Immunization Comments in eHR Viewer		
	Role Performing Activity: Pharmacists		
Panorama – Immunization WORK STANDARD	Location:	Department: Population Health Branch	
	Document Owner: Ministry of Health		
	Date Prepared: July 27, 2021	Last Revision:	Date Approved:

Purpose: eHR Viewer Immunization tab contains comments from Panorama regarding Adverse Events Following Immunization (AEFI) so the immunizer can access the AEFI recommendation for further immunization.

Essential Tasks:										
1	When a client presents for immunization the immunizer must screen for any AEFIs experienced with previous COVID immunization.									
2	If the client had an AEFI from a previous dose the AEFI comments from Panorama are available to be viewed in eHR Viewer.									
3	When within the Immunization History, click the box (comments icon) on the very left side of an immunization:									
	 <p>The screenshot shows the 'Immunization History' window. At the top, there is a disclaimer: 'This is not an official immunization record. This record contains immunizations (also called vaccines) as recorded in Panorama, the Saskatchewan Immunization Registry. It may not list all vaccines ever received in a person's lifetime. For emergency room, out of province or private travel clinic (anywhere not delivered by public health) may or may not be listed. If there are questions or concerns about this immunization record or for local public health office.' Below this, there are tabs for 'Immunization History (4)' and 'Reason Not Immunized (3)'. A search bar is present. A table lists immunizations with columns: Immunization Date, Vaccine, Dose, Lot#, Route, Site, Provider, and Facility. The first row is selected and has a blue box with an 'i' icon (Comments icon) on the left. The row details are: 2021-Jun-16, COVID-19 Covishield ChAdOx1-S, 0.5 mL, 4120Z029, Intramuscular, Left arm, and Ahtahkakoop - Health Centre.</p>									
4	This window will display Notes/Comments documented for that vaccination event:									
	 <p>The screenshot shows the 'Notes for COVID-19 Covishield ChAdOx1-S' window. It contains a table with the following data:</p> <table border="1"> <thead> <tr> <th>Date</th> <th>Entered By</th> <th>Description</th> </tr> </thead> <tbody> <tr> <td>2021-Jun-16</td> <td>Mr. Rob Hayes</td> <td>this is just a test</td> </tr> <tr> <td>2021-Jun-16</td> <td>Dr. CQE Panorama</td> <td>lawrenp/HEALTH.HIN.SK.CA</td> </tr> </tbody> </table>	Date	Entered By	Description	2021-Jun-16	Mr. Rob Hayes	this is just a test	2021-Jun-16	Dr. CQE Panorama	lawrenp/HEALTH.HIN.SK.CA
Date	Entered By	Description								
2021-Jun-16	Mr. Rob Hayes	this is just a test								
2021-Jun-16	Dr. CQE Panorama	lawrenp/HEALTH.HIN.SK.CA								
5	Review the notes before proceeding with vaccination.									
6	If there are questions regarding the notes, contact your local public health office.
